\* Some services that fall within this benefit category require prior authorization. Based on the service you are receiving, your provider will know if prior authorization is needed. This means an approval in advance is needed, by your plan, to get covered services. In the network portion of a PPO, some in-network medical services are covered only if your doctor or other in-network provider gets prior authorization from our plan. In a PPO, you do not need prior authorization to obtain out-of-network services. However, we recommend you ask for a pre-visit coverage decision to confirm that the services you are getting are covered and medically necessary. Benefit categories that include services that require prior authorization are marked with an asterisk in the benefits chart.

§ The benefits mentioned are Special Supplemental Benefits for the Chronically Ill (SSBCI). You may qualify for SSBCI if you have a high risk for hospitalization and require intensive care coordination to manage chronic conditions such as Chronic Kidney Diseases, Chronic Lung Disorders, Cardiovascular Disorders, Chronic Heart Failure, or Diabetes. For a full list of chronic conditions or to learn more about other eligibility requirements needed to qualify for SSBCI benefits, please refer to Chapter 4 in the plan's Evidence of Coverage (EOC).

Some of the benefits and limitations listed above are combined in-network and out-of-network.

This information is not a complete description of the benefits. Contact the plan for more information. Limitations, copayments, coinsurance, and restrictions may apply. If there is a difference between this document and the Evidence of Coverage (EOC), the EOC is considered correct.

Benefits, premiums and/or copayments/coinsurance may change upon renewal or on January 1 of each year.

Out-of-network/non-contracted providers are under no obligation to treat Plan members, except in emergency situations. Please call our member service number or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service.
